

**Benthic flora and fauna of the Patea Shoals region,
South Taranaki Bight**

Appendix B	Seabed samples collected during the benthic shelf survey on and adjacent to Patea Shoals, in the STB.	Pg: 144-pg151
Appendix C	Sizes of sand and silt	Pg: 152
Appendix E	List of the bryozoan species collected in the dredges and cores	Pg: 154-p162
Appendix F	List of molluscan species collected in the dredges and cores	Pg: 163-167
Appendix G	Species list of annelids and other worm-like phyla collected in the dredges and cores	Pg: 168-172
Appendix H	Species list of decapod crustaceans collected in the dredges and cores	Pg: 173-174
Appendix I	Species list of sponges collected in the dredges.	Pg: 175-176
Appendix J	List of ascidians species collected in the dredges.	Pg: 177
Appendix K	List of echinoderm species collected in the dredges.	Pg: 178, 179
Appendix L	List of fish species collected in the dredges and cores	Pg:180
Appendix M	Species list of non-decapod crustaceans collected in dredges and cores	Pg: 181-183
Appendix N	Species list of macroalgae collected in the dredges and cores	Pg: 184-185
Appendix O	Species list of cnidaria collected in the dredges	Pg: 186
Appendix P	Species list Foraminifera & Brachiopoda
